

Cores Primárias

Cores primárias são cores puras, sem mistura. É através das cores primárias que se formam todas as outras cores.

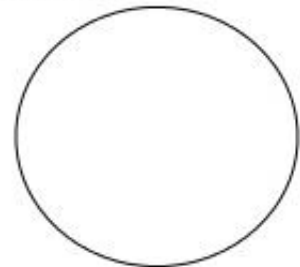

As cores primárias são: vermelho, amarelo e azul.

VERMELHO

AZUL

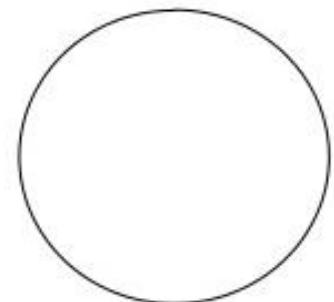

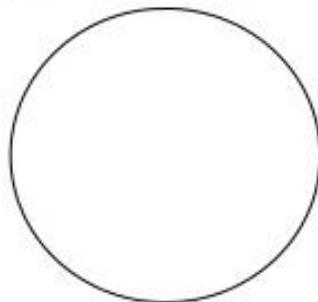

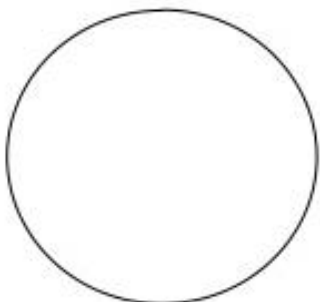

AMARELO

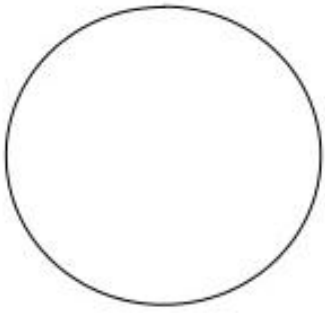

Cores Secundárias

As cores secundárias são aquelas formadas pela combinação de duas cores primárias.

As cores secundárias são:

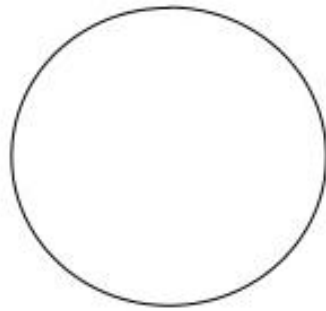

VERMELHO + AMARELO = _____

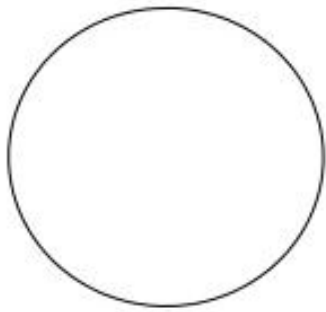

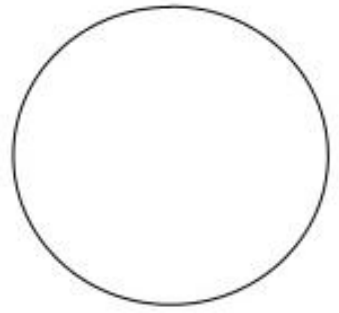

AZUL

+

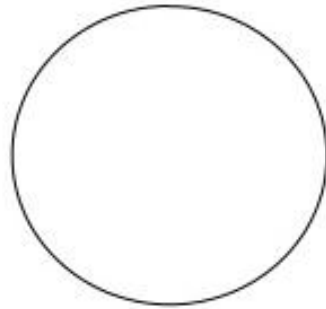

AMARELO =

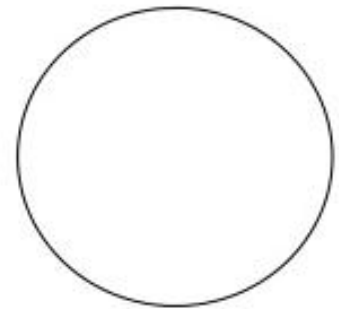

VERMELHO

+

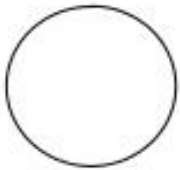

AZUL =

Cores terciárias

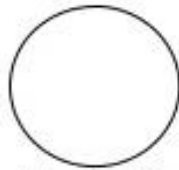

As cores terciárias são aquelas formadas pela mistura de uma cor primária com uma cor secundária.
